INTRODUCTION

People who need a god always get one. But they don't always get the god they bargained for.

In Black & White you are summoned to a new world by one single prayer. Ultimately, it will be the combined belief of your worshippers that determines how powerful you become.

How you decide to reign as a god is your decision. You may wish to be evil, gaining power as your people's fear grows. Or, you may be benevolent, gaining their trust and love. Then again, you may be a combination of both, if you wish. It's up to you to follow your conscience and rule as you see fit. In fact, your conscience, in the form of two Spiritual Advisors, appears throughout the game, giving you advice and trying to get you to reign over your land and your people in ways you might not have considered.

But however you play Black & White, there are many challenges, huge quests and other gods to overcome before you can truly win the hearts and minds of all the tribes of Eden.

For more info about this and other titles, visit EA GAMES™ on the Web at www.eagames.com.

A NOTE ABOUT THIS MANUAL

Given the flexibility of Black & White, the order that you encounter new items and learn new lessons is infinitely variable. That being the case, we recommend you use the Table of Contents to help you find out what you want to know.

The in-game Tutorial and Help are designed to help you along the way. Use the manual as a point of reference.

For installation instructions, troubleshooting and hint file information, please consult the separate Install Guide.

CONTROL SUMMARY

Learn the following controls to help you rule your worlds.

REDEFINING KEYS

You can redefine the functions of any of the mouse buttons or any of the keys in the OPTIONS Menu, under the CONTROLS tab (p. 47) to suit your playing style. In this manual and in the game the two main buttons are generally called the Left Mouse Button or the Right Mouse Button, but are referred to by their functions. That is the Move Button and the Action Button.

NOTE: Although you can redefine virtually all the keys in the game, this manual assumes you have not done so and refers to the default settings.

MOVING AROUND THE WORLD

Here are some hints and information on how to be an efficient and effective god.

USING THE MOUSE TO MOVE

The mouse is the easiest way to move around the world of Black & White. The default settings are as follows:

- Left Mouse Button (Move Button) Physically changes your location, or enables you to alter the direction you are traveling.

- Right Mouse Button (Action Button) Interact with the game world and many of the objects in it. Anytime you want to do something other than move, use the Action Button.

To move around the world, place the Hand over the landscape in the direction you want to move, and hold down the Move Button. Your Hand grabs the land. Then, with the Move Button still held down, move the Hand towards you. You'll drag yourself over the land.

- To move longer distances, either move the Hand further away or repeat the process several times.

- To move directly to a point, place the Hand at a point on the land and double-click the Move Button. You will travel directly to that point.

USING THE KEYBOARD TO MOVE

Depending on your preference, you can also use the cursor keys to move around. Simply press the arrow key with the direction you wish to travel.

NOTE: Using the cursor keys does not alter the direction you are facing.

ROTATING THE VIEW

To rotate your view while remaining in the same place, move the Hand to the edge of the screen. The Hand Tool turns into a Rotate Arrow. Hold the Move Button down on the mouse and move it in a circular motion to rotate the view.

If you have a mouse wheel, press and hold it and move the mouse to rotate the view. Holding the mouse wheel down lets you pitch the view as well (> Pitching The View on p. 4).

Holding CTRL and using the < or > keys also rotates your view around a fixed point.

You can also rotate by holding down both mouse buttons and moving the mouse sideways left or right, or by pressing [Left] (left) and [Right] (right).

NOTE: If you move the mouse forwards or backwards when both mouse buttons are held down you zoom in and out (> Zooming In And Out on p. 4).
**PITCHING THE VIEW**

Pitching is looking up or down. To alter the pitch of your view while remaining in the same place, move the Hand to either the top or the bottom of the screen. The Hand Tool tip turns into a Pitch Arrow.

- Hold the Move Button down on the mouse and bring it towards the center of the screen to alter the pitch.
- Holding Shift and using the ↑/↓ keys also alters your pitch angle.

You can also adjust pitch by pressing and holding the mouse wheel and moving the mouse up or down.

**ZOOMING IN AND OUT**

- If you have a mouse wheel, roll it forwards to zoom in and backwards to zoom out.
- If you do not have a mouse wheel, press and hold both mouse buttons at the same time, and move the mouse forwards/backwards to zoom in/out. While these buttons are pressed, you can also rotate the view by moving the mouse left and right.

- Holding Control and pressing the ↑/↓ cursor keys will also zoom you in or out.

**MOVEMENT USING KEYBOARD SHORTCUTS**

You can move to specific places or in specific ways by using special shortcuts.

For more information about the Temple Rooms, see "The Rooms of the Temple" section on p. 38.
MOVING AROUND USING BOOKMARKS
You can place Bookmarks anywhere on the land or on moving objects (such as people) so you can jump quickly to the specific locations or items that you have preset.

SETTING, CHANGING AND DELETING BOOKMARKS

To set a Bookmark at the current position of the Hand, press \CONTROL and a number key. If you press that number key you go straight to the position of that Bookmark and the view you were in when you set the Bookmark:

- You can set up to seven Bookmarks; tied to keys 1 to 7.
- You can reassign a Bookmark simply by going to a new position and pressing \CONTROL and a used number to reset the Bookmark to the new position.
- To delete a Bookmark, press \CONTROL and \SHIFT and the number of the Bookmark you wish to delete.
- To cycle through your currently set Bookmarks, press \CONTROL and \TAB. To cycle backwards press \SHIFT and \TAB.
- Press \BREAK to return to the last position you were in before you jumped to a Bookmark.

FOLLOWING A MOVING BOOKMARK
If you wish to follow a moving person, animal or Creature you have previously Bookmarked, press \SHIFT and the number. The camera then follows the Bookmarked object.

THE VORTEX
The gods sometimes employ vortices to move between lands. These mystical whirlpools are safe to travel through. Many things can be thrown into a vortex and they will arrive at the destination safely.

TIP: Vortices are a good way of bringing your favorite Villagers with you when you leave a land to continue your adventures elsewhere. Use the \N key to display Villager names.

INTERACTING WITH THE WORLD

INFLUENCE
As well as moving around Eden, you can interact with many things in the landscape. As a god, you have an Influence that is based around your Temple and any Villages you worship. The edge of your Influence is displayed on the landscape by a red haze. Outside the limit of your Influence, your Hand is overlaid with a red cross and your interaction with objects in the world is severely limited.

NOTE: In the Single Player Mode, your influence is a red haze. In the Multiplayer and Skirmish Modes, the haze may be other colors.

You can, however, interact with your Creature wherever he is:
- Within your influence, you can pick up objects, interact and cast Miracles (= Miracles on p. 29).

NOTE: As the population in your Village grows and you impress your subjects with your godly powers, your influence will increase. Conversely, if you fail to impress your subjects or their population falls, the extent of your Influence will shrink.

VIRTUAL INFLUENCE
You can interact with objects outside your Influence for a limited time. This is known as Virtual Influence. Your Hand takes energy with it when it leaves your Influence. This energy enables you to interact with whatever you choose, but it drains away all the time your Hand is outside your Influence. The further outside your Influence you move, the quicker the energy drains away.

TIP: If you want to get something from outside your Influence, try setting a Bookmark at the object's location.

Depending on the amount of Virtual Influence you have, you may succeed in grabbing the object.

PICKING UP OBJECTS AND AMOUNTS
There are many things you can pick up in the World of Eden. To help you spot what you can pick up, the fingers of your Hand will wiggle restlessly when they are over something that can be plucked from the landscape. The cursor tool tip helpfully changes to 'Pick up', too.

PICKING UP AN OBJECT

To pick something up when it's within your Influence, place the Hand over the object then hold the mouse's Action Button for a short time (the default setting for this is the Right Mouse Button). The object should now be in your Hand. If you now release the Action Button, the object stays in your Hand.

While you are holding something you can still use the Move Button to drag yourself around, or to go directly to a point.

PICKING UP AMOUNTS OF WOOD OR FOOD

To pick up an amount of something from a pile, like wood or food, move the Hand over the pile or stack and hold the Action Button down. You see the wood or food rising into your Hand as a rising numerical amount. Release the button when you've picked up enough.

TIP: You'll get more wood and food if you keep your crops and forests well watered.
Dropping and Throwing Things

- To drop the object in your hand, click the Action Button again. If you are holding a quantity of something, like wood or food, click the Action Button to drop it into a pile.
- To throw an object from your hand, press and hold the Action Button and move the Hand in the direction you want to throw the object. Then, when the Hand is still moving, release the Action Button to hurl the object in that direction.
- If you move the Hand slowly before releasing the Action Button, the object will be thrown in a low trajectory, close to the ground. If you move the hand quickly the object will travel higher and farther.

AFTERTOUCH

Moving the Hand after you have released the Action Button also affects the trajectory (or direction) of a thrown object. This effect is called Aftertouch.

- Move the Hand LEFT/RIGHT after release and the thrown object will curve to the left/right.
- If you move the mouse back, the thrown object will have backspin, while moving the mouse forwards adds topspin to the thrown object.

Your Alignment

Your alignment is how good or evil you are. But remember, you are a god. No one sits in judgment of you. You can do whatever you like. When you enter the world, the ideas of good or evil have not formed. Of course, your actions affect the world helping to define the concepts of good and evil. If you are harsh, brutal and quick to punish, your people will live in fear and, although they will worship you, they will do so out of duty and terror. You will be evil and your alignment will reflect this. Your Temple and your Hand will change and warp accordingly.

If you are kind and benevolent, your hand and temple will reflect this. People will see you as a good, just god and will worship you with love and thankfulness. However, it is not always wise to be seen as universally soft and helpful. Sometimes raining down righteous fury upon a Village is necessary for stamping your authority on unbelievers.

Your Creature’s alignment is affected by his own actions. It might not be the same as yours, and may even be totally opposite.

You should remember there is no ‘correct’ alignment; you can complete the game with whichever alignment you choose to adopt. It doesn’t matter whether you play evil or you play good, as long as you play well.

Your alignment can change during the game, and everything you do has an effect upon it.

The Spiritual Advisors

The two sides of your conscience, your Spiritual Advisors, will try and get you to do things the way they think you should. You can still do whatever you like. You can ignore them or heed their advice.

The Spiritual Advisors do, however, have some insights into the world of Black & White, which they are honor-bound to tell you. They will never mislead you about these things. If either Advisor tells you something factual, you can believe it. They cannot lie. But remember, when it comes to matters of good and evil, they will try to persuade you to do it their way.

The Story and the Scrolls

As you play Black & White, a story about the clash between gods and the battles for the souls of the tribes will begin to unfold. Although you are free to do what you want in the game, to finish it, you must play through this story by opening the Scrolls.

On the landscape you will see two sorts of shining Scrolls.

The Gold Story Scrolls

A Gold Story Scroll opens the next chapter of the story. These chapters are called Quests. The Quest will not start and the story will not progress until you click the Action Button on the next Gold Story Scroll. You can, however, click them whenever you like, and you may delay doing so until you are ready.

The Silver Reward Scrolls

These are prayers from the people. They have no bearing on the Quests and the story of Black & White. You do not need to click on them, but should you decide to then answer the particular prayer, you will often gain information, objects or rewards, which may well aid you in your adventures later.

After a scroll has been clicked, you can always return to it and click it for a reminder.

Help

Sometimes even gods need a little help.

The Gods’ Playground

At any point during the playing of Black & White you may visit a training land where you can practice some of the basic skills of movement and interaction required by the game.

- To visit the Gods’ Playground, press [Esc]. Your current game is saved.
- You can leave any of the tutorial tasks in the Gods’ Playground whenever you like by pressing [Esc]. If you wish press [Esc] again, to return to your Black & White auto saved game exactly where you left off.

Tool Tips

As you move around the world, briefly leaving your Hand over objects, buildings or people will trigger a Tool tip. Tool tips provide useful information about the object that you place your Hand over.

- You can adjust the level of Tool tip help as well as other help in the Options Menu (p. 47).

Tool tips are divided into two categories. There are Action Tool tips, which give you information about what is happening, such as a person doing something. And, there are Object Tool tips, which give information about what your Hand is currently hovering over, such as a building.

- If you use Tool tips a lot, over time they will become increasingly transparent and unobtrusive. However, important tips remain visible for longer.
SIGNPOSTS

Dotted around the land are wooden signposts. These give you a great deal of information, sometimes about playing Black & White in general and sometimes about specific tasks or features related to an object, person or building nearby.

- Click a signpost with the Action Button to access the information on it. If there is more than can be displayed on the signpost, an upwards pointing arrow appears. To scroll through the information use the Action Button to click, hold and drag the Hand UP and DOWN to view the rest of the text.
- To close a signpost, simply look or move away until it is out of sight, or click the Action Button on the signpost again.

IN-GAME HELP

If you press the F4 key when your Hand is over an object, building or person you'll access information about it. Frequently, it's the Advisors who provide this, so it's not always totally impartial.

THE TEMPLE

Your people will always try and build you a Temple. It is the center of your power and contains a host of features and functions you'll need to use if you wish to be a worthwhile god.

- Move to the Temple using the Hand, or by quickly tapping the [SPACEBAR] twice.

To enter your Temple:
Click on the doorway using the Action Button or press F4. Pressing F4 takes you into the Temple's World Room from anywhere in the land, so this is the quickest way to get there. From the World Room you may access the following rooms: the Library, the Save Game Room, the Challenge Room, the Creature Cave, the Game Options Room, and the Future Room. (→ The Rooms of the Temple on p. 38).
The Temple mirrors your alignment. It has a Worship Site (→ Worship Site on p. 20) attached to it, and the size of the Temple reflects the power you have within the land.
If your Temple is damaged, it distributes this damage to other buildings you own. If you have no other buildings, the damage is borne by your tribespeople.
- Should your Temple be destroyed, you will lose the game.

YOUR CREATURE

Creatures are magical beasts and little is known about them or their origins. They exist on the surface of Eden, but they belong to the gods and are there to do your bidding. Since you are a god, they will carry out practical actions for you, learn from you and impress the folk of Eden.

- You must complete the first Quest to choose a Creature.

Your Creature's First Steps
When you first get your Creature, you'll find he has a personality that is neither set nor very formed. In fact, he's very similar in nature to the animal he looks like. In time, you will teach your Creature a great deal. He can learn a vast amount and there is nothing you can't do in the game that he can't be taught to do.

NOTE: Both the game and this manual refer to all Creatures as male. Worry not, the true nature of Creatures transcends gender but, being bound by the limitations of language, we refer to the Creature as 'he' and 'him'. It's fair to say that since you mold your Creature's personality, perhaps in your image, it is likely to be whatever gender you wish it to be.

TEACHING YOUR CREATURE

There are three ways to teach your Creature:

1. THE LEASH OF LEARNING
Use the Leash of Learning (which is made of rope) to make the Creature learn the action you want him to learn (→ Leashes on p. 13). While he's on the Leash, you can still play the game, picking up things, moving and dropping items and casting Miracles. He will watch and learn anything you do with the Action Button if he's on the Leash of Learning.

TIP: Though Creatures are clever beings they do typically need to learn an action more than once to learn a lesson properly.

2. (DIS)APPROVAL OF YOUR CREATURE'S ACTIONS
You can teach him by approving or disapproving of what he does. To do this, you can stroke him to show him you are happy with his actions or slap him to show displeasure (→ Punishing and Rewarding your Creature on p. 12). Holding the Action Button down and moving the Hand gently over him in any direction will stroke him. To slap him, hold the Action Button down and move the Hand rapidly across him from side to side.

TIP: Ensure you give praise or punishment soon after the Creature has done something of note. If you wait too long, you might send confusing messages to your Creature.
3. GIVE THE CREATURE OBJECTS TO INTERACT WITH
Like a baby, your Creature will readily experiment with objects he can interact with. If, for example, you give him a rock, he will examine it to see what he can do with it. He might try to eat it but then again, he may throw it. And, again, you can show approval or disapproval if you so choose.

GIVING THINGS TO YOUR CREATURE
- To give your Creature something, pick the item up using the Action Button then hold it in front of him. The Hand rotates to show you are offering him something. Now, hold down the Action Button and he'll take it from you, if he's close enough.
- Some objects are too big for your Creature to hold. He will refuse to take something from you if he doesn't think he can carry it. As he grows, he'll be able to handle larger and heavier objects.

FEEDING YOUR CREATURE
One of the first things you'll want to do is teach your Creature what to eat. To give your Creature something you want him to eat, pick up the potential food, hold it in front of him and hold down the Action Button. He'll soon develop certain tastes for different things. When he is holding something edible, stroke his tummy to encourage him to eat it. If he eats something you don't want him to, you can punish him.

PUNISHING AND REWARDING YOUR CREATURE
Punishment and reward can be employed as teaching aids. This system is a great way to teach your Creature.

INTERACTING WITH YOUR CREATURE
- To punish or reward or otherwise get a close up view of your Creature and his health statistics, hold down the Action Button on him.
- If your Creature does something you like, or if you're generally pleased with him, hold down the Action Button and run your Hand gently over him to stroke him.
- To punish or discourage him from doing something, hold the Action Button down and move the Hand rapidly from side to side across your Creature's body. The Hand will deal the Creature a hearty slap.

Your Creature will remember what he was doing at the time you rewarded or punished him and, in time, will soon learn what you want and don't want him to do. That is, if you are consistent in your reward and punishment! Without consistency, who knows what will happen to your Creature.

When you are interacting with your Creature, you see Creature Statistics displayed. These are as follows:

- Damage, expressed as a percentage
- Hunger, expressed as a percentage
- Tiredness, expressed as a percentage
- Reward. This savings from the center, either left, towards 'BAD BOY' if you slap him, or right, towards 'GOOD BOY' if you stroke him.

Your Creature will need to answer the call of nature from time to time. Think about toilet training him. For example, teaching him to use a field when he feels the urge will improve the growth of your crops and keep the stench around your Temple to a minimum.

THE LEASHES
Your Creature has free will and does what he wants, so to get him to obey your commands you will need to use the Leashes. These are given to you by Salbe, the Creature Trainer, once you have completed the Creature Gold Scroll Quest and Tutorial.

- The three different leashes are located on the fence of the Creature Pen.

USING A LEASH
1. To pick up a Leash, click on a Leash using the Action Button or press the [L] key.
2. To attach it to your Creature, tap your Hand on him using the Action Button. One end of the Leash is attached to your Hand and the other to your Creature.
3. Now when you move around, he'll follow. Note that the Leash is stretchy. So, although he'll always follow, you can't drag him.
4. To direct your Creature to a specific location, action or object when he's on a Leash, click the Action Button on it.
9. You can speed up the rate at which he follows your Leashed Hand, by double-clicking the Action Button on open ground where you want him to move to.

LEASHING YOUR CREATURE TO AN OBJECT
Once your Creature is leashed, you can attach the end of the Leash you're holding to an object. You'll want to do this so you can move around and carry out other tasks in Eden while your Creature stays in one spot, perhaps out of harm's way.
THE LEASH OF COMPASSION

This fluffy Leash makes your Creature more loving and caring. He'll act like this regardless of his alignment.

LONG-TERM EFFECTS OF LEASH CHOICE

The effects all the Leashes have on your Creature will remain with him once you remove them, so if you use a Leash a lot, you'll alter his personality in the long term.

TIPS FOR USING LEASHES

- If you want to get your Leashed Creature to eat something, rub his tummy as he holds the food.
- Use the Leash of Learning to teach your Creature Miracles. But beware, some will be harder for him to learn than others.
- As your Creature grows in size, he will be more impressive to the people of Eden. Use this to help you win over the hearts and minds of those in Villages who do not yet believe in you. Try putting the Leash of Compassion on the Creature and anchoring it to a non-believing Village's Village Center.
- Well-behaved Creatures are invaluable in helping your own people. Attach your Creature with the Leash of Compassion to any Village store you own, and he'll do his best to look after that Village.
- Don't forget that as he grows and learns, your Creature will change and will be unique to you, your personality and your playing style. Try comparing your Creature with other people's online at http://www.bugame.com.

USING YOUR CREATURE EFFECTIVELY

When you've mastered the Leashes and the basics of how to teach, encourage and discourage your Creature, he'll play a big part in your Quest. Remember that he has his own personality and alignment. He will do what he has been taught, to an extent. However, Creatures are often wayward and you can't predict his actions and movements with any precision.

- To move your Creature directly, press C at any time. This is useful if you ever lose track of where he is. Pressing C will also track him as he moves around.

SWAPPING TO DIFFERENT CREATURES

During your adventure as a god in Black & White, you may get the chance to swap the body of your Creature to another species entirely. If this opportunity presents itself, you always get the chance to decline. Should you decide to swap, it will be clear how this will occur (the exact process differs depending on where you are and your alignment and how you've been playing).

If you decide to swap, the ENTIRE personality of the Creature you previously had will be transferred into the body of the new Creature. He will not forget anything, nor will he change his character or alignment. He will, however, be slightly smaller than the Creature you are swapping from.

- You can't swap your Creature wherever you like. Another Creature must be offered for this process to take place. If you swap Creatures, you'll always have the chance to swap back later.
**FIGHTING**

Your Creature will come into contact with other Creatures (for there are other gods in Eden). When this happens, combat may occur. Once experienced in combat, your Creature will fight on his own, carrying out the moves he thinks best. You can help him considerably in combat by directing his moves.

- Fights always occur in Combat Arenas, which appear outlined on the ground as the combatants square off to one another.
- Fights will only take place between Creatures of a similar size. If one Creature is too small then the Combat Arena will not appear. Needless to say, the smaller Creature will be in danger of getting squashed like a fly!
- Double-click the Move Button in a Combat Arena to gain control of your Creature if you don’t already have it. Moving or double-clicking the Move Button away from the Arena takes you out of the fight. The Creatures will fight on whether you are there or not.

**FIGHT MOVES**

To start a fight  
Click on another Creature while holding the Leash of Aggression.

To hit an enemy  
Click the Move or Action Button on the body part you want your Creature to strike. A highlight appears at the target to indicate this.

To side-step  
Click either button on the ground on either side of your Creature. A yellow highlight appears on the ground and your Creature moves there if he is able to.

To block an attack  
Click either button on your own Creature.

To move back or forwards  
Click either button on the ground in front of or behind your Creature.

**PREPARING MOVES AND STRIKES**

If you use the Action Button to fight, you can prepare (i.e. pre-set) moves and strikes. The Creature will attempt to follow each of the pre-set moves in order. You click the moves or strikes you want one after another using the Action Button.

- To cancel pre-set moves and regain control, click the Move Button at any point.
- You can zoom out of combat to interact with the world, and then return to the arena by double-clicking the Move Button or simply by zooming in again.

**USING MIRACLES IN COMBAT**

In combat you can cast Miracles at the foe. The Miracles you can cast are shown as Gestures on the bottom of the screen (> Miracles Table on p. 32).

- You may also cast Miracles on your Creature to increase his abilities or to heal him.
- To cast a Miracle, draw the shape as you see at the bottom right of the screen there on the ground with no mouse buttons held down. If you make the Gesture correctly, the Miracle is cast (> Gestures on p. 38 for instructions on casting Miracles using Gestures).

**SPECIAL MOVES**

Each Creature has a special move, which does approximately twice the damage of normal attacks. This appears in the bottom right-hand corner of the screen as a Gesture. To pull off the move, draw the Gesture on the ground with no buttons held down on the mouse. If you do this right, a sparkling Gesture trace appears and your Creature pulls off a spectacular Special Move!

**THE VILLAGE**

You own a Village when the majority of the people in it choose you as their god and object of worship. When this is the case, your influence extends clear across the Village and you can do whatever you like there—interacting with objects, buildings or people and assisting or hindering them as your godly whims dictate.

- Your Player Symbol is displayed at the Village Center. This is a quick way of checking if you control the Village.

- The importance of Villages to your godly power cannot be overstated. Ensuring the good health and growth of Villages is a very good way of ensuring that your Influence does not diminish.

**THE TRIBES**

There are eight tribes in the world. Each tribe has abilities and attributes unique to it. Over time, you will discover what these are.

**THE 8 TRIBES**

<table>
<thead>
<tr>
<th>Tribe</th>
<th>Celtic</th>
<th>Egyptian</th>
<th>Greek</th>
</tr>
</thead>
<tbody>
<tr>
<td>Indian</td>
<td>Japanese</td>
<td>Norse</td>
<td>Tibetan</td>
</tr>
</tbody>
</table>

**BUILDINGS AND RESOURCES**

There are many buildings your people can construct in each Village. Note that some are not available early in the game. As you progress through the game, your people will learn new technologies and consequently new buildings will become available.
TEMPLE

Your people will always construct a Temple for you if they can. It is the center of your power and influence. You only have one Temple at one time and you can never take over another Temple. It is possible, under certain circumstances, to destroy a Temple. You will learn what those circumstances are as you play.

VILLAGE STORE

Your Village requires two resources: Food and Wood.

Wood is gained by people cutting down trees, or you (or your clever Creature) uprooting them and dropping them on to the Village Store for preparation. Wood is required to construct or mend buildings.

Food is gained by you, your Creature or your people gathering crops from the fields or by fishing. It, too, is taken to the Village Store and people will collect food from here when they need it.

TIP: If you run out of trees because you've smashed up all your Villagers' abodes, you can gain extra wood by putting fences in the Village Store!

DESIRE AND THE VILLAGE STORE DESIRE FLAGS

Your people will let you know many of their desires by raising flags at the Village Store. The higher the flag, the greater their specified desire.

+ To see the desire associated with each flag, hold the Hand over the flag to display a Tool tip.

The flags that your Villagers may raise on the Village Store are:

- Food Desire
- Wood Desire
- Village Expansion Desire
- Children Expansion Desire
- Civic Buildings Expansion Desire
- Protection Desire
- Mercy Desire

- Fulfilling these Village desires will make your people believe in you more. Moreover, fulfilling them in Villages you don't control will impress the people in that Village a great deal.

VILLAGE CENTER

At the beginning of the game, your Village Center will display a fist and your symbol will float above it. Once you choose a creature, your Village Centers will display the form of it. Enemy Village Centers will show their god's creature.

This building displays the Village's available Miracles. Hold the Hand over the Village Center to display Tool tips about the Belief, Population levels, and total Village capacity.

INCREASING WORSHIPPER NUMBERS AT THE WORSHIP SITE

The Totem at the Village Center can be raised or lowered (though not in Land 1). Raising the Totem increases the number of people worshipping you and providing Prayer Power at the Worship Site.

+ To raise or lower the Totem, click and hold the Action Button on the Totem, then drag it up or down.
WORSHIP SITE

Your power as a god comes from the combined belief that your followers have in you. When summoned, by the raising of the Totem at the Village Center, your followers go to the Worship Site next to the Temple to generate Prayer Power. How much power they generate depends on how many are worshipping, and for how long. Prayer Power is required to cast all Miracles. The more Prayer Power you have generated, the more Miracles you can cast. [Miracles on p. 29].

Remember, raising the Totem can destroy a Village if all the Villagers die off through starvation. To prevent this, you can lower the Totem a little. The Villagers will then come to you to worship, and will relieve those most tired. Or you could supply the worshippers with food and healing yourself, to keep them at the Worship Site for longer periods.

Any Disciples you have created will only go to the Worship Site if the Totem is at its highest. Once they have finished worshipping they will continue with their other tasks. (For more about Disciples, see p. 24)

ABODES

Your tribe live in houses, called Abodes. In order for the tribe to expand, new ones must be built. Sometimes, depending on a variety of factors, the tribe will construct its own Abodes, but the best way to expand is to build them yourself using the Workshop.

You will not have a Workshop at the beginning of the game, but your tribe will eventually gain the technology they need to construct one and you will be informed when you are able to use it.

WORKSHOP

This building enables you to choose what to build and where to place it. When wood is put into a Workshop the craftsmen turn it into Scaffolds. These appear in the yard.

<table>
<thead>
<tr>
<th>NUMBER OF SCAFFOLDS</th>
<th>BUILDING CREATED</th>
<th>UNITS OF WOOD REQUIRED</th>
</tr>
</thead>
<tbody>
<tr>
<td>One Scaffolds</td>
<td>Small Abode</td>
<td>1500</td>
</tr>
<tr>
<td>Two Scaffolds</td>
<td>Large Abode</td>
<td>1800-1900</td>
</tr>
<tr>
<td>Three Scaffolds</td>
<td>Civic Building</td>
<td>2000-4000</td>
</tr>
</tbody>
</table>

TIP: Once the scaffold has been placed (click the Action Button), you should create a few Disciple Builders to do the task if you want the job completed quickly.
CIVIC BUILDINGS

Certain structures are classed as Civic Buildings. These are: Village Store, Village Center, Graveyard, Creche and Workshop.

When you join three scaffolds together, the blueprint for the Civic Building will be any Civic Building you do not have. If you have them all, it will default to the blueprint of another Workshop, which you may place in any Village in your Influence.

A WONDER

This magnificent structure increases the influence of your Village. The more belief the tribes’ people have when they build it, the bigger it will be when it’s finished. To have a bigger Wonder, try building it on a hill. Each Tribe’s Wonder is different, and each has a positive effect on the tribe, adding a large increase to your Influence, plus special effects such as Miracle power ups, unique to each tribe.

CELTIC WONDER

The Celtic Wonder increases the power of the Nature and weather Miracles. It also increases the amount of wood gained from each tree.

AZTEC WONDER

The Aztec Wonder increases the power of aggressive Miracles such as Fireballs and Megablasts. Also, each Villager will provide more worship chants.

JAPANESE WONDER

The Japanese Wonder increases the power of all healing Miracles, reduces the appetite for food in all your Villages and increases the likelihood of children being born.

INDIAN WONDER

The Indian Wonder increases both the power of Lightning Miracles and the speed at which the Villagers move.

EGYPTIAN WONDER

The Egyptian Wonder reduces the amount of damage your Creatures take. It also reduces the Prayer Power cost of the Teleport Miracle and increases the power of the Fleck of Dida Miracle.

GREEK WONDER

The Greek Wonder increases the power of the Pack of Animals Miracle. It also enables children to be produced faster.

NORSE WONDER

The Norse Wonder increases the yield from Farms and Fish Farms and increases the strength of Food, Wood and Water Miracles. It also reduces the wood cost of buildings.

TIBETAN WONDER

The Tibetan Wonder decreases the Prayer Power cost of all Shields, makes the Pack of Animals Miracle more powerful and makes all your godly actions more impressive.

VILLAGERS

All your Villagers have wants and desires, and it is up to you whether you wish to satisfy them. They will ask in their prayers for your help. Any help you give will be met with wonder and an increase in belief.

The list of desires is as follows:

- Each desire has a corresponding flag at the Village Store. The higher the flag, the greater the specified desire (+ Desirs and the Village Store Desir Flags p.18).
- A Villager’s status is tracked and can be viewed by pressing $1. You can view stats on Age, Life, Fatigue and Pregnant. The pregnant status marker will only appear for female villagers, when carrying a child.
DISCIPLES
These are Villagers to whom you assign a specific task. Disciples will carry out the tasks single-mindedly, doing little else but eat and sleep.

- If you raise the Totem fully, ALL your Villagers will go to the Worship Site to pray.

CREATING DISCIPLES
Creating Disciples is a useful way of managing your Villages. If a Disciple cannot carry out the allotted task, he or she will wait at the Village Center.

- Pick up a Villager using the Action Button. Then drop them (gently) next to the task you wish them to do. While a potential Disciple is in your Hand, you will see a Disciple icon showing you what he or she will become if you drop them at certain locations.

- All Disciples have a bright aura around them. Villagers without an aura are not Disciples.

Here are the Disciples you can create and the objects you should place them by to assign them their new role in your world.

FARMER
Place a Villager in a field.

FORESTER
Place a Villager by a tree.

FISHERMAN
Place a Villager by a shoal of fish near the shore.

BUILDER
Place a Villager by an unfinished or damaged building.

MISSIONARY
Place a Villager in a Village you don't control to impress and influence the people there.

CRAFTSMAN
Place a Villager at a Workshop to ferry wood to it.

TRADER
Place a Villager by a Village Store in a Village you don't control to get them to supply that Village with resources to impress them.

BREEDER
Place a Villager next to another of the opposite sex. They will get on like a house on fire and will start the serious work of making babies.

- Without empty living space (denoted by green figures when you tap the roof of a hut with the Action Button), Breeders will not reproduce. Instead, they will wait at the Village Center or the Worship Site until living space becomes available through death or the building of more huts.

CANCELING DISCIPLES
Disciples can be cancelled by shaking them in your Hand until they are released.

IMPRESSING OTHER VILLAGES
The key to Black & White is taking over the hearts and minds of other tribes and Villages. The more believers you have, the more power you get and the greater your influence will become.

You can impress a Village you don't own in many ways:

- If other Villagers see your Creature, they will be impressed. The size and the actions of your Creature will determine to what degree. Using your Creature in a Village you wish to impress in conjunction with the Leashes will also have a profound effect on the population there.
Supply their Village Store with whatever resource they need most. Just drop the wood or food into their Village Store and their belief in your powers will increase.

Throw things over the heads of the Villagers. Rocks are rather good for this show of power.

Make Disciple Missionaries by placing people next to the foe’s Village Center.

Protect them with Shield Miracles.

Aid them during emergencies such as an attack or a fire.

Present them with gifts like Scaffolds, wood or food.

Use Artifacts.

You can create an Artifact by placing an object in your Village. At sunset the Villagers will dance around it. After many such moonlit dances, the object will become an Artifact. Artifacts are very impressive to non-believers when placed in another Village’s Worship Site. Build a structure near the settlement you wish to impress.

TIP: Your Creature can interact with objects outside your Influence. This is especially useful when you’re trying to impress Villagers some distance away from your own settlement with some random act of godly violence!
TAKING OVER ANOTHER VILLAGE

To see how close you are to taking over another Village, look at that Village’s Village Center. Each Village Center will display your player symbol above it if you have begun to impress it, or have already converted it. The closer your symbol gets to the idol displayed on the Village Center, the closer you are to taking over the settlement.

If you hold your Hand over the symbol you will see a Tool tip showing how close you are to converting the Village.

Any of your Villages can be impressed by another god and can switch allegiance, just as you can take over other Villages. You should do all you can to prevent this from occurring.

MIRACLES

Miracles are spectacular acts of the gods. As you progress through the game, you will be able to learn or find a great many Miracles. Your Creature can learn to cast any Miracle that you can. Taking over new Villages is a good way to increase the number of Miracles you are able to cast.

Miracles use the energy your people’s belief in you generates as they pray at a Worship Site. This is called Prayer Power. You can only cast Miracles if you have the required amount of Prayer Power stored at your Worship Site. Every Miracle requires a certain amount of Prayer Power and you control the amount of power you are generating by moving the Totem at the Village Center. Raising the Totem will send more people to the Worship Site to generate more Prayer Power. The health of people who are worshipping hard and long will suffer.

You will learn, find or be granted different Miracles as you progress through the game.

TIP: Completing Silver Scroll tasks will often result in the gift of Miracles.

CASTING MIRACLES

There are two sorts of Miracles: Learnt Miracles and One-shots. Learnt Miracles are displayed at the Worship Site or Village Center. One-shots are found at Miracle Dispensers or dotted around the landscape.

LEARNT MIRACLES

1. Click the Action Button once on the Miracle icon to charge it. You will see the energy rings flowing into your Hand as it charges.
2. When it is ready to cast, the Miracle appears in your Hand automatically.
3. To cast the Miracle, you click the Action Button again.

The charging will slow or stop if you don’t have enough Prayer Power stored or being generated. It will continue or speed up if you increase the number of worshippers at the Worship Site.
ONE-SHOT MIRACLES

One-Shot Miracle

These appear in bubbles on the landscape or at a Miracle Dispenser.

- Activate a One-Shot Miracle by clicking the Action Button on it to break the bubble. Double-click on it if you are holding a Leash. The primed Miracle then rests in the palm of your Hand. You can then move the Hand to the position you wish to cast the Miracle, or even move yourself by grabbing the landscape (or any other method) to another position.

- To cast the Miracle, you click the Action Button again.

Some Miracles simply produce their effect at the location of the Hand when you cast them. Others can be aimed.

THROWING MIRACLES

Some Miracles result in energy being projected in a certain direction. As you cast the Miracle, you can throw this energy in the direction of your choice in the same way you would throw an object. Note that this energy will continue outside your influence. An example of this type of miracle is the Fireball.

AREA SPECIFIC MIRACLES

Other Miracles affect areas of the landscape, and as you cast them you must draw an area on the ground over which they are to take effect. An example of this type of Miracle is the Shield.

Some area Miracles can be sent in a certain direction when cast, (e.g. Storm Miracle). To send an area Miracle in a certain direction, use Aftertouch once you have cast it (⇒ Aftertouch on p. 8).

RESOURCE MIRACLES

Some Miracles, such as food, wood or water can be cast in multiple places from a single Miracle charge.

- Press the Action Button and release when you want to stop casting the Miracle. Press the Action Button again until the Miracle is completely spent.

CANCELING MIRACLES

The following Miracles remain active on the landscape until canceled, destroyed (in the case of Shields) or until your Prayer Power runs out: Physical Shield, Spiritual Shield, Forest, Teleport

TIP: All these Miracles drain Prayer Power constantly while they remain cast. As a result you may want to move or cancel them when they’re no longer required.

- To cancel a Miracle, either click on the icon above the cast Miracle or pick up the Miracle. If you want to cancel shake your Hand from side to side.

- If you want to move the Miracle, click on the icon above the cast Miracle or pick up the Miracle then click the Action Button at another point in the World.
<table>
<thead>
<tr>
<th>NAME (PRAYER POWER REQUIRED)</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fireball (3500)</td>
<td>Ball of fire that can be steered with Aftertouch</td>

</tr>
<tr>
<td>Compassion (6000)</td>
<td>Must be targeted on a Creature. He'll temporarily feel nothing but kindness</td>
</tr>
<tr>
<td>Angry (6000)</td>
<td>Must be targeted on a Creature. He'll be furious with everything for a short while</td>
</tr>
<tr>
<td>Holy flies (8000)</td>
<td>Must be targeted on a Creature. He'll be obsessed with scratching for a while as a swarm of charmed insects buzz angrily about him</td>
</tr>
</tbody>
</table>

- Your Creature will NOT learn Creature Miracles that you cast on him. He will only learn if he can watch you casting them on another Creature.
GESTURES

Gestures are a magical way to cast various Miracles. Simply put, a Gesture is a special shape traced on the ground by your hand. It can summon a Miracle or Leash into your Hand without having to actually pick one up. You can get any Miracle you have learnt into your Hand using a Gesture.

Gestures can be used to pick up and swap Leashes, as well as to cast Miracles. If you are far from your Worship Site or Village Center, they’re ideal for choosing a large Miracle (as long as you are within your Influence).

- The shape you have to trace for each Miracle or Leash is shown in the bottom right of the screen. More will be added as you learn them.
- Gestures are explained fully in Land 2 when you click the correct Silver Scroll.

PICKING UP A LEASH USING GESTURES

At the bottom right corner of the screen is a Leash Gesture. Trace this once to pick up the Leash of Learning. Two other Leash Gestures appear letting you swap quickly to the Leash of Aggression or the Leash of Compassion.

CASTING MIRACLES USING GESTURES

Before the all Gestures for the available Miracles are displayed, you must cast the required Miracle Gesture (Spiral).

ACTIVATING AVAILABLE MIRACLES

For regular Miracles you should make a Clockwise spiral Gesture:

ACTIVATING AVAILABLE CREATURE MIRACLES

For Creature specific Miracles, you must make an Anti-clockwise Spiral gesture.

Once you have done this, all the Miracle Gestures you can appear in the bottom right-hand corner of the screen.

CASTING A MIRACLE USING GESTURES

Each Miracle you know has a Gesture icon in the bottom right of the screen.

1. Make this shape on the ground by tracing it with the mouse.
2. Note the speed that the Gesture is traced in the icon’s animation—you should try to recreate it as closely as possible.
3. If you do this correctly and you have the required amount of Prayer Power, the Miracle appears in your Hand.
3. Click the Action Button to cast the Miracle.

A Miracle will start charging if you don’t have enough Prayer Power, but you have people worshiping. The quoted Miracle sends pulses of Prayer Power to your Hand. You may also view the charging Progress at the Temple. Once the required amount of Prayer Power is attained you may cast it.

Once you’ve cast a Miracle successfully, you can then use the Repeat Miracle Gesture to cast it again.

REMOVING A MIRACLE FROM YOUR HAND WITHOUT CASTING IT

You can either replace it on the icon palettes at the Worship Site or the Village Center, or you can shake your Hand to remove it. If you shake your Hand or replace it the Prayer Power is returned and can be reused. You can also stop a Miracle charging up by shaking your Hand.
THE ROOMS OF THE TEMPLE

NAVIGATING THE TEMPLE
- If you want to change your view in the room you are in, click either mouse button, hold and drag to rotate the view.
- To enter a Room, click on its door.
- You can also click the Move Button on any of the tapestry-like scrolls that hang in the Temple. These contain information about your current game. Click at the edge of the screen to zoom out from a scroll.

THE WORLD ROOM
In the World Room (the Temple Lobby), you'll find a map of the land laid out before you.
- Click on the buttons around the edge of the World Room map with the Action Button to toggle them on and off. The buttons are detailed below:
  - Your Temple Position
  - Extent of Your Influence and any other god’s Influence
  - All Gold Story Scroll Quests or Silver Challenge Scrolls currently active
  - Miracles Being Cast
  - Your Creature’s Position, together with any other Creatures on the land
- You can double-click the Move Button on the map to go straight to that point in the land outside.

THE LIBRARY
The Library contains a wealth of information and help about the world and its multiplicity of inhabitants. As you click on the signposts in the game, their information is automatically transported here so you can tune up in a central location, should you wish.

- Click the Move Button on any of the Scrolls around the walls to view them.
- Click, hold and drag with either mouse button to move the scroll up/down.
- To have a scroll, click the Move Button at the edge of the screen.

- Use the Library to refresh your memory about the things you learn in Eden.

THE SAVE GAME ROOM
There is an Autosave function in Black & White, which automatically saves your progress so you can easily pick up where you left off. However, this function is turned off as a default setting. For details of how to turn it on, see Options on p. 47. If you want to manually save your progress, go to the Save Game Room. Whenever you quit the Single Player Game, your progress is saved whether Autosave is activated or not.

- The Autosaves are displayed in the top row of the Save Game Room.

SAVING A GAME

To save a game:
1. Click the Move Button on a picture or frame to zoom into it.
2. Click on the yellow arrow pointing towards the empty frame.
3. Type in a saved game name.
- You can also double-click on the picture or frame to type a name straight in.
- You can overwrite a previously saved game by clicking on the yellow arrow below its picture and typing in a new saved game name.
LOADING A GAME
To load a game, click the Move Button on the green arrow laying out from the frame of the desired game.

DELETING A SAVED GAME
Click on the red button with a cross on it to delete the highlighted game.

THE CHALLENGE ROOM
In the Challenge Room, you can view all the challenges you've started. Click the Move Button on a picture to see details of each challenge.

You cannot enter this room if you haven't triggered any Challenges or Quests.

When a Gold Story Scroll is triggered, the frame around it is gold, a silver frame means the challenge is a Silver Scroll type.

✦ If a challenge is unfinished, click on the button underneath it to return to the world and get a reminder about it. The Scroll on the wall provides a list of all the challenges you've started.
✦ You can also double-click a Gold or Silver Challenge Picture to go straight to it in the land outside.

THE CREATURE CAVE
In the Creature Cave you can find out information about your Creature. What his likes and dislikes are and what he has learned so far.

TATTOOING YOUR CREATURE
Should you wish, you can tattoo your Creature when you're in the Creature Cave.

Click to change color range

Black square on Creature's body Location of the chosen tattoo

Click and drag to charge your view of the Creature

Click to exit the Tattoo screen and save tattoo

Click to exit the tattoo screen without saving

To tattoo your creature:
1. Click on him when he's in the Creature Cave and the tattoo options appear.
2. Choose a tattoo from the selection. You can change the tattoos' color by sliding the bar on the left. The bar on the right changes the lightness or darkness of the tattoo.
3. Once you're happy with the tattoo and its color, click and drag it onto the part of the Creature you want to tattoo using the Move Button. If you have chosen a valid location, a black square appears at the location and the chosen tattoo flashes. Release the button and the Tattoo appears on your Creature.

✦ To rotate the Creature, click the rotation circle at the bottom of the screen.
✦ To remove a Tattoo, simply click and drag it off the Creature's body.

THE CREATURE PEN
The enclosed area outside the Temple door is the Creature Pen. He'll treat this as his home and if he's at a loose end (and he's not loosed), this is where he'll often come to hang out. Due to the reassuring nature of the pen, he'll grow faster and his health will be restored quicker if he sleeps in his pen, rather than outside it.

✦ Your Creature will return to the Creature Pen if he gets hurt.

THE FUTURE ROOM
Who knows what the future holds? This room is filled with the mysteries therein.
**MAIN MENU**

Press **ESC** and the Main Menu screen appears. You may begin a **SKIRMISH GAME** or **JOIN ONLINE GAME**. **QUIT BLACK & WHITE** or go to the **OPTIONS** Menu Screen.

- At the Main Menu, you can click on the **STATISTICS** tab to view a variety of stats for the Single Player Game.

**CONTINUE GAME**

Return to **Black & White** (at the point when you pressed **ESC**).

You can also return to the game by pressing **ESC** again.

**START SKIRMISH GAME**

A Skirmish Game is one where you battle against one, two, or three other gods for a land. This game is great for practicing taking over other settlements and learning to fight with your creature. Note that everything your creature learns and experiences in the Skirmish Game will be retained and can be used should you choose to return to the standard Single Player Game.

When you start a Skirmish Game, your position in the Single Player Game you quit is automatically saved. You must then select the number of gods who you will be battling against.

- Once you have selected the game, you are spirited to a land to play out the battles. Pressing **ESC** returns you to the Main Menu at any time.
- At the Skirmish Statistics Menu you can click on tabs to view Player Stats for the Skirmish Game, as well as Creature Stats, Town Stats, Miracle Stats and Tech Stats.

**JOIN AN ONLINE GAME**

Note that you must register at http://www.bwgame.com before you can play Black & White over the Internet using the Lobby Screen. The Registration site can be reached by choosing **Register Black & White with Lionhead studios** from the game's Start menu folder. Simply follow the instructions, fill out the registration form and choose a user name and a password.

You must have an e-mail address to receive confirmation of your user name and password.

When you start an Online Game your progress in the game you just left is automatically saved.

To begin an online game:

1. To choose a connection, click on the sort of network you wish to play across. This may only have one option displayed, but could show a Local Area Network (LAN) or any other internet accounts you might have.
2. If you selected **LOCAL AREA NETWORK**, you may either select your Local Network to search for a game or you may use the Internet. Choose one option and click NEXT. (For more information, **To play on a Local Area Network** below.)
3. If you selected a network account, please see **To Play on the Internet** below.

**TO PLAY ON A LOCAL AREA NETWORK**

All players need to be in the 'Find & Game On Your Local Network' screen. All the computer's names appear listed in the 'Current Games' list on the left of the screen.

To connect to a game on a LAN:

1. Click on computer name from the list to select a host for the current game. The Host's computer name now appears in the 'Players in Game' list on the right of the screen.

**NOTE:** We recommend that the fastest PC should act as the Host.

2. Once a host for the game has been selected, click on **JOIN GAME**.

(For more information, **To Set up and Play any Multiplayer Game** on p. 44.)

**TO PLAY ON THE INTERNET**

To connect to a game on the Internet:

1. Type in your user name and password (which you received in your registration e-mail). Then click NEXT.
2. You may then opt to find or create a game on the Internet.
3. To choose a game to join, click on any displayed game in the Current Games list then click the **JOIN GAME** button.
4. To host an Internet Game, click on **CREATE GAME** to set up and host a game. Choose a game name and, if you like, a password for your new Internet game. If you select a password you can create a closed game, accessible only to those who have this password.

(For more information, **To Set up and Play any Multiplayer Game** on p. 44.)
TO SET UP AND PLAY ANY MULTIPLAYER GAME

The Chat Screen is where you choose teams and chat to other players.

CHAT SCREEN (LAN AND INTERNET)
To select which god team you would like to join:
1. Click on a team box.
2. The JOIN button appears in the top right corner of the box.
3. Click on the JOIN button and your computer's name appears in the box.

To invite other players over to your team:
1. Click onto another player's computer name and the INVITE button appears.
2. Click INVITE to automatically ask that player to join your team. The invited player must click YES to accept your invite or NO to stay with their current team.

The Host may KICK other players out of the current game session.

To kick out another player:
1. Click to highlight their computer's name.
2. Click the KICK button that appears next to the name. The selected player is removed from the current session but can remain as an observer.

CO-OPERATIVE PLAY
If you click on a team that already has a player in it, you can join it if the team leader lets you. With co-operative team play, all the players on one team play with just one Creature. It is up to the team to decide who controls the Creature at any one time, and who carries out other godly acts.

OBSERVING A GAME
If you don't want to take an active role in the online game but would prefer to watch useful for picking up hints from more experienced players, Black & White allows you to do so.

To observe a game:
1. Click on your name and a SPECTACLES button appears.
2. Click the SPECTACLES button to move over to the Observers list on the right of the screen.

To go back to a team, highlight a team box and click the JOIN button.

LANDSCAPE (LAN AND INTERNET)
The host must choose a landscape while all players can view the teams and who is in each team.
Players may attempt to change teams, but can only do so if the team leader accepts them. A thumbnail sketch of each land is displayed in the lower middle of the screen. To select it, the host must click on the button at the bottom marked USE THIS LAND.

When all the teams are present and the land has been selected and downloaded, the host must click START to begin the Multiplayer Game.

PLAYER DETAILS (INTERNET ONLY)
View more details by highlighting the name of any player in any team.
1. Click START to start the Multiplayer Game.

CLANS (INTERNET ONLY)
A clan is a group of players who ally with each other over the Internet. You can set up or join a clan at http://www.bwgame.com.

If you are in a clan, you earn clan credits whenever you play Black & White. These are saved and your clan's ability can be measured against others.

Whenever you play a multiplayer game of Black & White, you take your Creature into the game. His experience in these games will be retained and he will take this back into any Single Player Game.

The exception to this is Clan Play. The first time you take a Creature into a Clan game, he is effectively cloned and will remain your Clan Creature and separate from your Single Player Game Creature.

COMPUTER PLAYERS
If you play a game requiring more players than you have, the extra player slots are allocated to computer-controlled players.

CHATTING
To chat with other players:
1. Click on the text box at the bottom of the screen and type a message. To send it to the other players, press [ENTER].
2. Click on a team box above and then click on the text box to send a message to that team only.
3. To de-select a Team, click again. The next message you type will go to all players.

If you are playing a Single Player Game of Black & White you can chat to any other Black & White players you have made friends with who are on-line at this time. (For more information, see Creating a Friends List p.46)

TAUNTS
To send a pre-written 'Taunt', hold down the Move button over the Cloud/Lightning icon to the left of the Text Box. A drop-down menu of possible taunts appears. Highlight a taunt and then let go of the Move button to send that taunt to other players in the game.

VIEWING OTHER PLAYERS IN THE GAME
To bring up a list of players currently in the game, click on 'Players' underneath the Text Box. If you highlight players from the Players list, you can send messages to them alone. Your team-mates will appear in your team color on this list.

If no names are selected, the message will go to everyone in the game.
CREATING A FRIENDS LIST
To move a player to your Friends list:
1. Click to select a player from the Players list, the MAKE FRIENDS button appears.
2. Click on MAKE FRIENDS to move the selected player into your Friends list. A Radar icon (above)
appears next to your friends' names to let you know that they're online.
   ■ Now wherever you're playing Black & White, you'll know when they are online and you can chat to
   them or perhaps arrange a Multiplayer game.

To remove a player from your Friends list:
1. Select a player from the Friends list, the MAKE NOT FRIENDS button appears.
2. Click on MAKE NOT FRIENDS to move the selected player back into your Players list.

OPTIONS
At the Options Menu screen you can click either mouse button on the following tabs to alter game
settings.

OPTIONS TAB
Adjust the Sound Effects volume (SFX VOLUME) and MUSIC VOLUME using the black slider.
Adjust the Detail Level using the black arrows. Altering these settings requires a game restart for the
new settings to take effect.
   ■ Full video options can be adjusted using the Setup program accessible from the Start Menu.

AUTOSAVE
You can select the AUTOSAVE function by clicking the button. Autosave saves the game every five
minutes. Whenever you leave the world to quit or to play a Skirmish or Online Game, the game is saved
whether Autosave is activated or not.

PUSH SCROLLING
You can also select PUSH SCROLLING if you want to change the way you move around the World.

PLAYERS TAB
This displays a list of the players names that have already been created. Click to select one. You can also
click on the player symbol to change this.
You can change your CREATURE NAME, CREATE NEW PLAYER, DELETE PLAYER and EDIT TATTOO.
Should you wish, you can also START A NEW GAME of Black & White.

EDIT TATTOO
By selecting EDIT TATTOO you may add, alter or remove tattoos to the Creature. (= Tattooing your
Creature on p. 41 for instructions on how you might do this.)

ADVANCED TAB
✦ To adjust the level of Help in the game, click the arrows. HIGH HELP is the default.
You can also adjust the level of Text and the level of Tool tips.
You can toggle the following options off and on:
   LEFT HANDED HAND in the game ON/OFF.
   CREATURE HELP ON/OFF - Creature help is invaluable in sorting you to your Creature's needs
   in the early stages of the game.
   TEXT FROM BOTTOM - The text scrolls from the bottom upwards ON/OFF.

CONTROLS TAB
You can redefine any of the keys or controls in Black & White. Double-click any control then press the
new key to redefine it.
LOAD DEFAULTS resets all the controls to the default settings when you first installed the game.

WARRANTY AND TECHNICAL SUPPORT

NEED TECHNICAL SUPPORT? Please see the enclosed Install Guide for technical support information.

NEED GAMEPLAY HELP? Call EA's HINTS & INFORMATION HOTLINE for recorded hints, tips, and passwords, 24 hours a day, 7 days a week!

In the U.S., dial 1-800-288-HINT (4464), 95¢ per minute.
In CANADA, dial 900-451-4873, $1.15 (Canadian) per minute.
If you are under 18, be sure to get a parent's permission before calling. Hotline requires a touch-tone telephone. Call length determined by user, average length is four minutes. Messages subject to change without notice.

ELECTRONIC ARTS LIMITED WARRANTY

Electronic Arts warrants to the original purchaser that this product is free from defects in materials and workmanship for a period of 90 days from the date of purchase. Electronic Arts is not liable for any boxes or damages of any kind resulting from the use of this product. If the product is found to be defective within the 90-day warranty period, Electronic Arts agrees to repair or replace the product at its option free of charge.

This warranty shall not be applicable and shall be void if the defect in the product is found to be as a result of abuse, unreasonable use, misattribution or neglect.

LIMITATIONS

This warranty is in place of all other warranties and no other representation or claim of any nature shall be binding or obligate Electronic Arts. Any implied warranties applicable to this product, including warranties of merchantability and fitness for a particular purpose, are limited to the 90-day period described above. In no event will Electronic Arts be liable for any special, incidental, or consequential damages resulting from possession, use, or malfunction of this Electronic Arts software product.

Some states do not allow limitations as to how long implied warranty lasts and/or exclusions or limitations of incidental or consequential damages as the above limitations and/or exclusions of liability may not apply to you. This warranty gives you specific rights, and you may also have other rights that vary from state to state.

RETURNS WITHIN 90-DAY WARRANTY PERIOD

Please return the product along with a copy of the original sales receipt, showing the date of purchase, a brief description of the difficulty you are experiencing including your name, address, and phone number to the address below. If the product was damaged through misuse or accident, this 90-day warranty is rendered void and you will need to follow the instructions for returns after the 90-day warranty period.

We strongly recommend that you send your product using a delivery method that is traceable. Electronic Arts is not responsible for products not in its possession.

RETURNS AFTER THE 90-DAY WARRANTY PERIOD

Please return the product along with a check or money order for $7.95 made payable to Electronic Arts, a brief description of the difficulty you are experiencing including your name, address, and phone number to the address below.

We strongly recommend that you send your product using a delivery method that is traceable. Electronic Arts is not responsible for products not in its possession.
